

José Genuel Mercedes Abreu

FULLSTACK & BACKEND DEVELOPER

My approach to learning is primarily based on building and solving concrete problems. I am interested in understanding how things work and how their various components relate to one another, which is why I tend to get involved in every stage of the projects I develop. This way of working has enabled me to build a solid technical foundation while continuing to focus on creating complete systems.

EDUCATION

2023 - 2026

Instituto Politécnico Pedro Feliciano Martínez

Technician in Computer Application Development and Administration

2017 - 2025

New Life Institute

Advanced Technical English Course (A1-C2)

WORK EXPERIENCE

Cementos Progreso Dominicana

IT Intern

February 2026 – April 2026

During my internship, I participated in technical support, infrastructure, and equipment maintenance activities within a corporate environment. This experience allowed me to gain my first professional experience in the technology sector, apply technical knowledge to real-world situations, and work alongside an experienced team in managing IT resources and systems.

TECHNICAL SKILLS

- **Languages:** C#, JavaScript, SQL
- **Frontend:** HTML5, CSS3, TailwindCSS, Bootstrap
- **Backend:** .NET, Node.js, Express.js, Supabase
- **Database:** Microsoft SQLServer, MySQL, PostgreSQL, Microsoft Access
- **Tools and version control:** Git/GitHub, Docker, Figma, phpMyAdmin
- **Deployment and infrastructure:** Hostinger, Netlify, Vercel, Render
- **Development environments:** Visual Studio, Visual Studio Code, SQL Server Management Studio (SSMS), MySQL Workbench y pgAdmin.

SOFT SKILLS

- **Teamwork**
- **Clear technical communication**
- **Analysis and resolution of complex problems**
- **Adaptability and rapid learning**
- **Task organization and follow-up**
- **Time and priority management**
